

SAMPLE ASSET OWNERSHIP & REVIEW CERTIFICATE

For product testing, AI review logic, and workflow demonstration only

Important Notice: This is a sample/template certificate for Akunuba.io development and testing. It is not a legal deed, not a government-issued certificate, not a certified appraisal, and not proof of ownership outside the Akunuba test environment.

This certificate records a sample asset submitted into the Akunuba platform for ownership review, portfolio tracking, and AI-assisted appraisal workflow testing. The asset details below are fictional and may be replaced with real user-submitted information in production, subject to verification and compliance review.

1. Asset Information

Certificate ID	AKN-SAMPLE-RE-0001
Asset Type	Real Estate
Asset Name	Residential Property - Boston, MA
Owner Name	Sample User
Ownership Type	Individual
Purchase Date	January 2022
Purchase Price	\$750,000
Estimated Current Value	\$920,000
Location	Boston, Massachusetts
Purpose of Certificate	Testing asset approval, valuation, and portfolio workflow

2. Asset Description

A sample residential property owned by the user and added to the Akunuba portfolio for asset tracking, valuation, ownership review, and marketplace-readiness workflow testing.

3. Supporting Documents Required

- Property deed or ownership certificate
- Purchase agreement or closing statement
- Recent property tax bill
- Mortgage statement, if applicable
- Recent appraisal report, if available
- Insurance document, if available
- Property photos or supporting evidence, if required

4. AI-Assisted Review Logic

Approved	Ownership document is provided, asset details are complete, and key information matches the submitted record.
Pending Review	Basic asset details are provided, but ownership proof, valuation support, or key documents are missing or incomplete.
Rejected	Documents do not match the asset, appear invalid, or the submitted information is materially inconsistent.
Valuation Confidence	If valuation documents are missing, the asset may still be accepted for ownership review, but valuation confidence should be low.
Human Review	High-value, unclear, disputed, or complex assets should remain pending until an admin or expert reviewer confirms the record.

5. Sample Review Result

AI Review Status	Pending Review
Confidence Score	72%
Review Reason	Asset details are complete, but ownership document is missing. User should upload a deed, purchase agreement, or tax bill before full approval.
Recommended Next Step	Request supporting ownership document and keep the asset visible in the portfolio with restricted actions until verified.

Issued for: Akunuba.io Development & Testing

Issue Date: June 23, 2026
